## Immune Enhancing Proteins

### IN A CLASS OF ITS OWN

THE FIRST AND EXCLUSIVE PRODUCER OF  
**NATIVE WHEY PROTEINS™**

They are the **ONLY** Full Range, Biologically Active, Non-denatured Whey Proteins.

Native Whey Proteins\* are not by-products of cheese manufacture like all other whey products.

This immense difference preserves the vital immune and regenerative components which are destroyed by the processing of cheese manufacture.

These two unique and potent products provide Native Cysteine Nutrition. This ensures the optimal production of Glutathione, our body's Master Antioxidant, Detoxifier and Immune booster. Additionally, they contain the highest levels of Lactoferrin, Immunoglobulins, Active Peptides and Growth Factors.

**Healthy, natural grass pasture fed cows.  
Hormone treatment-free and GMO-free.**

### The choice of professionals

The most potent whey protein available anywhere. Highest levels of Glutathione precursors.

Per 5 gram serving scoop:  
645 mg Immunoglobulins  
170 mg Lactoferrin

### Quality without compromise

The most potent, smooth mix, great taste, whey protein available.

Per 5 gram serving scoop:  
520 mg Immunoglobulins  
125 mg Lactoferrin

Comparison of the key Immune boosting and Glutathione producing protein components containing Cysteine.

The three leading dietary supplement whey proteins are isolates, ion-exchange or hydrolyzed forms.

\* **Native Protein:** The naturally occurring conformation of a protein. Unaltered by heat, chemicals, enzyme action or processing.

\*\* Analysis of protein as determined by an independent laboratory using the SDS PAGE Gel method. This is the industry accepted method to determine the actual biological activity of a milk protein.
